Seniors

Class of 1978

President: Andre Carey
Vice President: Chris Wisner
Secretary: Anita Larsen
Treasurer: Robert Albrecht
Advisor: Manuel Emanuel
Advisor: Frank Fabiano

This year we finally made it, we became seniors! Our fourth year here at Ketcham seemed different since split sessions were no longer in operation. The halls seemed much larger but the traffic jam had not left us.

We kicked off the year with our homecoming float. There was a tremendous amount of work involved but through the efforts of an unselfish few, things went smoothly. Our next project was the annual senior play. The Class of '78 produced "The Boyfriend", which was a big success. This was our first fundraiser but by no means our last. We initiated another first by selling linen calendars. This, coupled with the yearly valentine-o-grams gave our treasury a big boost. The second annual Gong Show was an experience for us all. There were some sticky spots but we came through rather well.

The event of the year was definitely the prom. It was the culmination of everything we had worked for. It was held at Meadowbrook Lodge and lived up to all of our expectations.

It seems as though an eternity has passed since "a bunch of green teenagers" ventured into a very scary, very challenging place called R.C. Ketcham. But throughout the past four years every individual has risen to this challenge in his or her own unique way. For every member of the class of '78, there will hopefully be a special event or person that makes R. C. K. an unforgettable experience. We hope that through our years together, we have somehow moved you and helped you to grow. There can of course, be only one Class of '78 in the history of Ketcham. We think that there is undeniable pride in the distinction.

We are and always will be the Class of '78. Our diversified student body has shared the toils of these high school years. With such vigor and coinage there have been many an individual to aid our class executing those tasks required during our years at Ketcham. Our monetary and social success far outweigh any mishaps we encountered. We can all take credit for our accomplishments as we reflect upon our times together.

We were the first of the freshman classes to attend Ketcham on a split session program. We occupied the New Wing in seclusion, where we were expected to be productive in our studies and unaffected by "older influences", it took three classes to make it seem plausible that freshman were confined and much less adjusted when forced out of the influence of older, more mature students. At any rate, our freshman class was at a poor disadvantage. We had no funds to begin with since we were not able to carry out the usual magazine drives as most classes did while in Junior High. So as the Class of 1977 became known as the richest class, we were in many respects known as the poorest. With no collateral it was rough getting started. We had to rely on bake sales for any fund raising. We did manage to secure over \$100 that first year through bake sales and by selling buttons printed as "Ketchan" Indians instead of Ketcham Indians. They may very well be a collectors item someday, for they are very rare.

Our sophomore year was entirely more productive. We were released from the "New Wing" and began to feel as though we were now in high school. We got to get up at 6:00 am and no longer had to arrive home from school at dark. With this fresh new incentive our sophomore year made up for our freshman year. We sold Funbars and profited over \$600. Dollars for scholars was set up as a fundraiser for the four classes, and naturally the Class of '78 sold the Most. Christmas time brought a few bake sales. We are a class who "plays" it safe. Ketcham had not seen a "normal" dance for sometime and as sophomores we brought it upon ourselves to feature two in one year averaging profits of \$300 each. Our carwash was a laugh and showed great fellowship, an accomplishment we deem more than any other. Leave it to us to come up with innovative ideas. We were the first class to have a Class Ring Raffle, on which we made \$100.

Our junior year proved even more active than the previous ones. Predictions for the success of this year were gloomy, as we suffered the apathy of so many taxpayers who couldn't see paying for proms and other "stuff kids really don't need in school." As we all know however, we financed our own proms and we weren't exactly swimming in monetary funds at the end of our sophomore year! Experience showed us that bake sales built up our collateral for larger projects with "no risk" insurance. That year we sold tootsie rolls by the dozens. But by far the Basketball Concession Stand was our biggest asset. Through the help of some very diligent workers, we cleared well over \$1000 by the end of the season.

Many students became involved as we worked hard and long for the junior prom. Our prom was well organized but many last minute details were still unfinished as of 8:00 pm March 26. Our theme was "Searchin' so long" and thanks to the dedication of a few workers and teachers (who weren't really supposed to help) we pulled it off. The band was a minor disappointment, but this was our 1st "small mistake".

Wrap up Senior year guys!

GRETHCHEN WERNER, Identification Editor

I happen to believe in teamwork, group spirit, and participation, do you? I thought that by putting our heads together, we would soar to great heights, and accomplish our goals. We *really* accomplished them this year. I'm so grateful and lucky that our staff this year was so cooperative, responsible, and hard-working. It really shows in the end. Through the year, our efforts and ideas all seemed to be grabbed in midair and thrown together by an almost visible result of suction. We couldn't have had a better bunch of staff people. They all *Knew* what their objectives were.

First, I would like to thank the administration. Where would our class really be without them to guide us. They have given us inspiration and leadership that we have truly deserved. I also am grateful to them for helping us to achieve a feeling of maturity, responsibility, and a positive outlook on life.

Next, I wish to congratulate our teaching corps. They have given us, by example an attitude that we get out what we put into something. Doing a job half way is not the way. We all see now what the consequences will be. I couldn't help but see the gradual change between the old fashioned teacher-student relationship to the change I've witnessed, in just these few years. We've seen from some teachers that extra kindness and attention can lead to long-lasting relationships in later life. One other good point is that the faculty has shown us over the years that

you must try to get everything out of your job. Use it to its fullest power, then try to get more. Be ambitious.

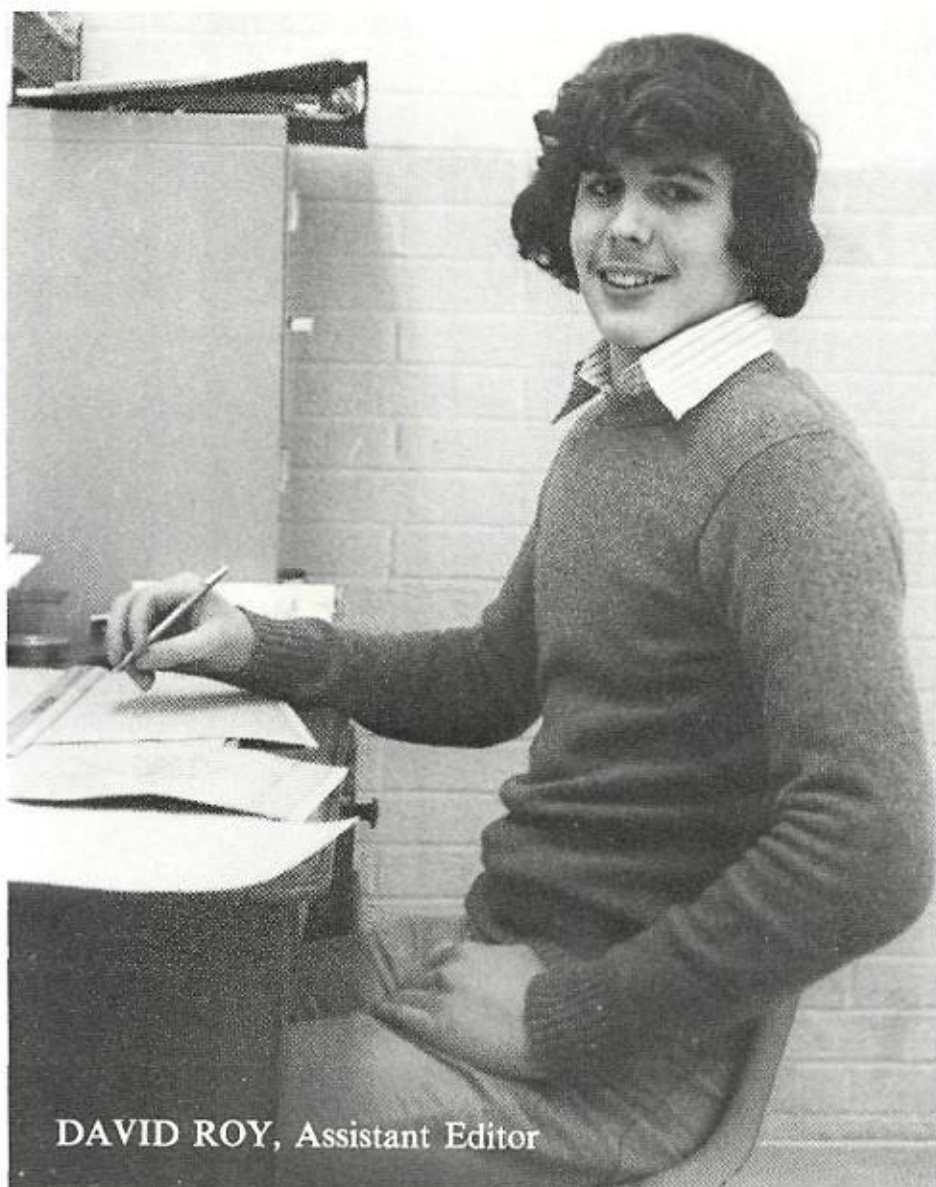

Finally, I'd like to thank the senior class of 1978. I would first like to say that I have never in my life seen a more spirited, active, and downright spunkier group than you all. For instance, our Portico sales have hit new inconceivable, unbelievable records. It is really rewarding that your spirit has motivated us to work just the same in bringing you this yearbook. It is what kept us on the move. We wanted to make the 1978 PORTICO reflections our class as we really are. I've learned a very important lesson this year: work hard, and put your real gut-feelings into whatever you do, and then see where that gets you.

I would like to say farewell to my school by first wishing each and every member of our class a tremendous amount of luck in the future. Also to the underclassmen, I would like to pass on to you that if you keep a *sharp* lookout, you too, will see the valuable lessons that go on in our school each day. Be sure to realize what our school really has to offer to you. Almost everything, except a soccer field.

Thank you Ketcham,
For everything you've done,
Steve Higgins

TO A FRIEND

You entered my life in a casual way
And saw at a glance what I needed

There were others who passed me or met me each day
But never a one of them heeded

Perhaps you were thinking of other folks more
Or chance simply seemed to decree it

I know there were many such chances before
But the others - well they didn't see it

You said just the thing that I wished you would say
And you made me believe that you meant it

I held up my head in the old Gallant way
And resolved you should never repent it

There are times when encouragement means such a lot
And a word is enough to convey it

There were others who could have, as easy as not
But just the same they didn't say it

There may have been someone who could have done more
To help me along though I doubt it

What I needed was cheering and always before

They had let me plod onward without it.

You helped to refashion the dream of my heart
And made me turn eagerly to it

There were others who might have (I question their part)
But after all they didn't do it.

Love
